

Applied to Metal
& Open Mold

DESCRIPTION:

- ❑ **ND Plastisol Applied-To-Metal** adheres to many substrates and, as a result, can be applied directly to fasteners, washers, and other parts for a variety of purposes.

ND Plastisol Applied-To-Metal:

- ❑ Cushions
- ❑ Insulates
- ❑ Masks
- ❑ Seals
- ❑ Trims
- ❑ Controls Noise
- ❑ Reduces Vibration

ND Plastisol Applied-To-Metal offers weatherability and dielectric strength while providing excellent fire, chemical, abrasion, UV, and ozone resistance.

FEATURES:

- ❑ **Pre-Applied to Fasteners:** ND Plastisol Applied-To-Metal provides a positive seal that eliminates leaks. Unlike O-rings and nylon washers which are difficult to seat, tear easily and lose integrity when nicked or cut, ND Plastisol Applied-To-Metal fasteners are easy to seat and offer a less expensive alternative to other under-head fastener sealing methods.
- ❑ **Versatility:** ND Plastisol Applied-To-Metal products are available in virtually any durometer (hard to soft), and in any color, including fluorescent and clear.

ND Plastisol Applied-To-Metal

ND Plastisol products meet or exceed the performance requirements of the following specifications and/or standards:

AUTOMOTIVE

- ❑ DaimlerChrysler MS-DC543 (Replaces MS-DC43)
- ❑ Ford ESB-M4G70-A or C
- ❑ General Motors GM6086M Type IIIB, GM1131 Type D

For a complete list, contact ND INDUSTRIES.

DESCRIPTION:

- ❑ **ND Plastisol Open-Mold** products are the perfect low cost alternative to thermal injection molding, rubber molding, die cutting, and hand fabrication available as gaskets, O-rings, washers, bezels, and other complex shapes.
- ❑ ND Plastisol Open-Mold cushions, insulates, masks, seals, trims, controls noise and reduces vibration

FEATURES:

- ❑ **Custom Designed Product:** ND Plastisol Open-Mold utilizes a unique open mold forming technique that is perfect for a wide variety of applications such as gaskets, washers, bezels, and other complex shapes.
- ❑ **Low Tooling Costs:** Due to ND Plastisol Open-Mold's unique process, production requires fewer tooling components and less setup time than conventional forming techniques such as thermal injection molding,

ND Plastisol Open-Mold

rubber molding, die cutting, and hand fabrication. ND Plastisol Open-Mold products are less expensive, making them perfect for prototypes, and short, medium, or even high volume runs.

- ❑ **Short Delivery Time:** ND Plastisol Open-Mold requires minimal tooling allowing products to "get to market quicker."

ND PLASTISOL PRODUCTS SPECIFICATIONS:

❑ Primary usage	Sealing & gasketing
❑ Material	PVC, closed cell, available in virtually any durometer - hard or soft
❑ Color	Normally black (available in any color, including fluorescent & clear upon request)
❑ Temperature Range	-40° F to 320° F (-40°C to 160°C)
❑ Solvent Resistant	Compatible with most common solvents
